

VSA15 CSV file and content

For the VSA15 dataset, there is a single output file.

vsa15_time_to_results.csv

This file provides a summary of the time taken from a cervical screening test being undertaken and the patient receiving the results, as measured by expected delivery date. Data is provided at national, region and local authority level and replicates the statistics provided in Data Tables 9 and 9a.

Column Heading	Description
CollectionYearRange	Year of data collection
Parent_Org_ONS_Code	ONS code of Org_ONS_Code's parent organisation (England/Region)
Parent_Org_Name	Name of Org_Name's parent organisation (England/Region)
Org_ONS_Code	ONS organisation code (England/Region/Local Authority)
Org_Name	Name of organisation in table (Local Authority, Region or National) For ease of reference England/Regional values have the same Org_Name as their Parent_Org_Name
Org_Type	Either Local Authority, Region or National
Total_letters	Total number of letters sent to women tested
EDD_within_14_days	Number of letters delivered up to 2 weeks after screening
EDD_in_15_to_21_days	Number of letters delivered over 2 weeks and up to 3 weeks after screening
EDD_in_at_least_22_days	Number of letters delivered over 3 weeks after screening
