

## PHOF CSV File and content

For the PHOF dataset, there is a single csv file output.

### phof.csv

This file provides statistics on the cervical screening call and recall programme. Data is provided at national, region, and local authority level and replicates the statistics provided in Data Tables 1, 11 and 13.

Column Heading	Description
CollectionYearRange	Year of data collection
Region_Code	Code of Org_ONS_Code's region (England/Region)
Region_Name	Name of Org_Name's region (England/Region)
Org_ONS_Code	ONS organisation code (England/Region/Local Authority)
Org_Name	Name of organisation in table (Local Authority, Region or National)  For ease of reference England/Regional values have the same Org_Name as their Parent_Org_Name
Org_Type	Either Local Authority, Region or National
<sup>(1)</sup> Eligible_PHOF_25_64	Number of eligible individuals aged 25 (first invitation is sent at age 24.5 years) to 64 for cervical screening.
Screened_PHOF_42_66mth	Total number of eligible individuals aged 25 to 49 with an adequate screening test in the last 3.5 years + total number of individuals aged 50 to 64 with an adequate screening test in the last 5.5 years
Coverage_PHOF_25_64	Percentage of those eligible and registered as female aged 25 to 64 screened within the last 3.5 or 5.5 years (depending on age) on 31 March
<sup>(1)</sup> Eligible_PHOF_25_49	Number of eligible individuals aged 25 (first invitation is sent at age 24.5 years) to 49 for cervical screening.
Screened_PHOF_42mth	Total number of eligible individuals aged 25 to 49 with an adequate screening test in the last 3.5 years
Coverage_PHOF_25_49	Percentage of those eligible and registered as female aged 25 to 49 screened within the last 3.5 years on 31 March
<sup>(1)</sup> Eligible_PHOF_50_64	Number of eligible individuals aged 50 to 64 for cervical screening.
Screened_PHOF_66mth	Total number of eligible individuals aged 50 to 64 with an adequate screening test in the last 5.5 years
Coverage_PHOF_50_64	Percentage of those eligible and registered as female aged 50 to 64 screened within the last 5.5 years on 31 March.

#### <sup>(1)</sup> Eligible

Individuals are identified as eligible for screening if they are:

- registered with a GP (or otherwise known to the NHS)
- in the screening age range (24.5 to 64 years for routine screening)
- a woman or person with a cervix (not registered as male)
- not ineligible because their recall has been ceased as they do not have a cervix (most commonly due to hysterectomy)
